

Foam Wall Berm

Drive On - Drive Off

The [OX Foam Wall Berm](#) is the perfect solution for drive-through secondary containment ideal for frac tanks, large machinery, vehicles, and other moving equipment. These berms have four foam walls that allow items to be rolled on the berm from any direction. They have a low profile while maintaining high durability.

Foam Wall Berm

Drive On - Drive Off

[OX Foam Wall Berms](#) are a reliable choice for spill containment under leaking vehicles, machinery or storage equipment. The equipment can drive directly onto these berms, built with durable, low-profile foam sides.

Applications

- Job site Secondary Containment
- Frac Tank Containment
- Car/Vehicle Wash Down
- Leaking Equipment
- Fueling Trucks/Stations
- HAZMAT Spill Response
- Large Machinery

Advantages

- Drive Through Ready
- Durable
- Low Profile
- Materials Quickly Moved on and off
- Resists a Broad Spectrum of Chemicals
- Rolls up for Easy Transportation
- Built to your Size Requirements
- Cost-Effective Containment Solutions
- Rapid Response to Leaks and Spills
